Keynote Speaker

Bryan Kelly is Frederick Frank '54 and Mary C. Tanner Professor of Finance at the Yale School of Management and Head of Machine Learning at AQR Capital Management. He is also a Research Fellow at the National Bureau of Economic Research and Associate Director of SOM's International Center for Finance. Professor Kelly's primary research fields are asset pricing, machine learning, and financial econometrics. He has served as co-editor of the Journal of Financial Econometrics and associate editor of Journal of Finance and Journal of Financial Economics. Before joining Yale, Kelly was a tenured professor of finance at the University of Chicago Booth School of Business. He earned an AB in economics from University of Chicago, MA in economics from University of California San Diego, and a PhD and MPhil in finance from New York University's Stern School of Business. Kelly worked in investment banking at Morgan Stanley prior to his PhD.
